

## Learn to CODE & change the world this Summer!

\*\*\*\*\*

### WHAT IS NEWBURGH GIRLS CODE CLUB IMMERSIVE SUMMER CODE CAMP?

Newburgh Girls Code Club (NGCC) Immersive Summer Code Camp is a 2-week intensive in- person & virtual coding bootcamp designed to foster youth leadership development & STEAM learning opportunities, and close the gender gap in tech. Over 10 days, you'll explore how Computer Science can change the world in a sisterhood of supportive peers and role models. You'll make friends; practice fun, online coding tutorials; identify issues you care about in your community and design real solutions to address them through code.

### WHAT WILL I LEARN?

You'll build the skills you need to make an impact! A professional Coder will guide you through creating designs, animations, games, apps, websites, and other inventions. You'll practice coding languages such as Scratch, Python, HTML / CSS, JavaScript, Thinkable, and VidCode; engage in empowerment workshops in the NFL garden; get inspired by innovative women in tech; and help to launch NGCC's first ever podcast.

### CAN I APPLY?

Join the movement! We invite all girls & non-binary youth, beginners & masters, ages 10-18, regardless of school status, to apply. This program is hybrid in person & virtual.

**DATES:** Weekdays (Mon.-Fri.), July 12 - July 23, 2021

**TIMES:** 9:30 a.m. - 1:30 p.m. (in person & virtual sessions)
